INDEX.

PAGE

Abney, Capt.—
Report on the Stability of Mineral and Vegetable Colours 148

Adams, Prof. J. Crouch—
On the System of Shorthand employed by Abraham Sharp 169

Adder—
The Common Adder. Article by A. J. Field 82

Allen Grant—
Mud and Continents 25
Hazel and Filbert 49

Aluminium—
Aluminium Bronze and Aluminium Iron ... 17

Anderson, Edward—
Another Undecipherable Cipher 17

Andromeda—
Article on the Great Nebula in Andromeda, by A. C. Ranyard 75
Photograph of, by Isaac Roberts ... 75, 108

Atkinson, W. J.—
The Society of Amateur Geologists 65

Bateman, C. S. Latrobe—
Notice of his book entitled "Under the Lone Star"... 128

Beynon, Richard—
The Economics of the Fog 243

Blue Ray—
Last ray of Setting Sun blue 126

Blue Flame—
Due to Burning Salt 176

Bond, G. P.—
Drawing of the Great Nebula in Andromeda 75

Boulak Museum—
Position of the 67

Boulger, Prof. G. S.—
Notice of book entitled "The Uses of Plants" 229

Bovell, Arthur—
An Undecipherable Cipher 65

Burnham, W. S.—
Photographs of the Lick Observatory ... 125
Discovery that α Ursæ Majoris is a close double star 148
Orbit of τ Cygni 246

Butler, E. A.—
Meal and Tabby Moths 53
Sawflies... 79
The Transformation of Sawflies 119
Tiger-Beetles 157, 179
The Common Cockroach ... 199, 217, 239

PAGE

Calculating Boys—
On some strange Feats of, by R. A. Proctor 8, 37, 63, 130

Calendar, Hugh L.—
Notice of his book entitled "A Manual of Cursive Shorthand" 112

Candles—
Article on Chemistry and Manufacture of Candles, by W. Mattieu Williams 161

Carpenter, W. Lant—
On Ocean Temperature 41
Notice of Life of Sir Wm. Siemens 45
Fulfils some of the Lecture engagements of Mr. Proctor 113

Carus-Wilson, Cecil—
Articles on Drifting Sand 105

Catkin—
Of Hazel and Filberts, by Grant Allen ... 49

Chevreul—
His researches with regard to the Chemistry of Fats 51

Christie, Robt. W. D.—
On Magic Squares 151
Some Properties of Numbers ... 186, 212, 234

Cipher—
Another Undecipherable Cipher 17
An Undecipherable Cipher 65
An Undecipherable Cipher Deciphered, by Arnold G. Hansard 87

Clayden, Arthur W.—
Dark Flashes of Lightning shown to be a Photographic Phenomena 210

Clodd, Edw.—
Review of F. L. James' book, "The Unknown Horn of Africa" 43
Review of C. S. Latrobe Bateman's book, "Under the Lone Star" 128
Review of Chambers' Encyclopædia... ... 172
Review of C. N. Starcke's "The Primitive Family in its Origin and Development" ... 229

Coal Supply—
Paper read at Statistical Society, by W. R. Price Williams, on Future of Coal Supply... 124

Cobbe, Miss Frances Power Cobbe—
Letters on Vivisection... ... ... 109, 127

Colburn, Zerah—
Calculating Boy 9

Coldridge, Ward, B.A.—
The Production of Sugar 201, 223

683982

PAGE

Comets—
Dr. Hock's Papers with respect to Groups of 42
A. C. Ranyard on Velocities of Approach of 42, 67
On the Origin and Motions of Comets, by W. H. S. Monck... 219

Common, A. A.—
Sketches of the Nebula in the Pleiades ... 68
Photographs of the Orion Nebula 146

Copeland, Dr. Ralph—
Appointment as Astronomer Royal for Scotland 67

Coral Reefs—
The Formation of, by W. H. Wesley ... 4

Corona—
On a Great Branching Structure in the Corona of August 29, 1886, by A. C. Ranyard ... 18
Corona Photographed during Eclipse of 1889, Jan. 1 105

Crookes, W.—
Gift of Radiometers to the South Kensington Museum 40

Cross-Fertilisation—
Of wheat 65

Crouch, Archer P.—
Notice of his book entitled "Glimpses of Feverland" 150

Curtis, H. P.—
Collection of Photographs of Tornadoes ... 225
An Account of a Tornado 227

Darwin Prof. George—
Notice of article on Saturn and his Ring System 173

Davis, E.—
Notice of book entitled "Practical Microscopy" 149

Day, R. Camper—
Waves of Electricity 81
The Head of a Bee 142
On Lightning Rods 220
The Dragon Tree of Tenerife 237

Detective Cameras 94

Dines, W. K.—
Connection between Pressure and Velocity of the Wind 173

Draper, Dr. Henry—
Memorial to 7
Self-recording Barometer and Rain-Gauge of 58

Drayson, A. W., Major-General—
Notice of his book entitled "Thirty Thousand Years of the Earth's Past History" ... 150

Dust Storms—
See Paper on Tornadoes 225

Eclipse—
Total Solar Eclipse 1886, August 26, by A. C. Ranyard 18
Total Solar Eclipse of 1889, January 1, by A. C. Ranyard 105
Prof. W. H. Pickering's photograph taken during the Eclipse of 1889, January 1 ... 168

Examinations—
The Effects of Competitive Examinations ... 7
Opinions of De Morgan, Dr. Whewell, and Sir John Herschel on 8

PAGE

Fairies—
Of France, Italy, and Spain, by Mary Proctor 20
North American Indian Fairy-Lore 107

Field, A. J.—
Notes on the Spotted Salamander 60
The Common Adder 82
Letter on Experiments on Snake Bites ... 109
On Bats 122
Letter on Vivisection 128
The Cries of Frogs 152
Does the Female Viper swallow its Young? 248

Finley, Lieut, J. P.—
Geographical Distribution of Tornadoes in the United States 227

Fitzgerald, M.—
Observation of Ball Lightning 167

Fogs—
Dr. Marcet on London Fogs 90

Frogs—
The Cries of Frogs. Letters signed "Twenty-seven Years in India" and "A. J. Field" 151, 152

Gattie, W. Montagu—
Articles on Whist in each number.

Geology—
Institutions where Geology is taught... ... 13
Scientific Societies founded for the Study of Geology 14

Gibson, *see* **Westby-Gibson.**

Gold—
The Occurrence of 163

Gore, John Ellard—
Notice of his book entitled "Planetary and Stellar Studies" 112

Gravity—
On the Universal Action of, by R. A. Proctor 27

Green, N. E.—
His Drawings of Jupiter 194

Gremli—
Notice of Translation of Gremli's "Flora of Switzerland" 228

Grimthorpe, Lord—
On Mr. Inwards's Compensating Pendulum... 64

Gunsberg, J. (Mephisto)—
Articles on Chess in each number.

Hall, Maxwell—
The Sun's Motion in Space 120

Hansard, Arnold G.—
An Undecipherable Cipher 87

Harrison, W. Jerome, F.G.S.—
Geology in London 13
A Photo-Geological Trip to the South Stacks 57

Hasluck, Paul N.—
Notice of book entitled "The Mechanics' Workshop Handybook" 23

Hazel—
Article on Hazel and Filbert, by Grant Allen 49

Heron, Francis—
Letter on Resemblance of Children to their Parents 211

Herschel, Sir John—
Comparison of Moon's Brightness with Sandstone Rock of Table Mountain ... 245

PAGE

Hertz, Dr. H.—
Experiments of 81

Hiorns, A. H.—
Notice of his text-book of "Elementary Metallurgy"... 172

Hoffert, Dr.—
His Photograph of Lightning 179

Holden, Prof. E. S.—
Letter on Photographs of the Orion Nebula... 191

Hopkins, B. J.—
Intelligence in Cat 42

Hopley, Catherine C.—
Notice of book on "British Reptiles and Batracians"... 22

Horland, G.—
An Undecipherable Cipher 87

Howarth, E.—
Article on the Sand Grouse 91

Howlett, Rev. Wm.—
Photograph of Lightning Blasted Tree ... 198
Letter on Occultation of Jupiter and Wilson's Theory of Sun Spots 232

Huggins, William, F.R.S., F.R.A.S.—
Spectrum of the Orion Nebula 164

Hutchinson, Dr. Robert F.—
On the Jackal 39

Hydrogen—
The Discoverer of 67

India-rubber—
Pavement 70

Inwards, R.—
Paper on New Form of Compensating Pendulum, read at Meeting of the Astronomical Society 41
Letter in Answer to Lord Grimthorpe ... 85

James, F. L.—
Notice of book entitled "The Unknown Horn of Africa" 43

Kilauea—
Volcanoe in Sandwich Islands 99

W. F. Kirby, F.E.S.—
Notice of Mr. Scudder's book on the "Butterflies of the United States"... 88
Notice of Mr. Kirby's book on "European Butterflies and Moths" 89

Klein, Dr. Hermann J.—
Notice of Star Atlas of 89

Lassell, Wm.—
Drawings and Observations of the Orion Nebula 147

Leonard, N.—
Blue Flame produced by Burning Salt ... 173

Lick Observatory—
Description of the 34
Automatic Recording Instruments of the Lick Observatory 58

Library—
Free Library of the Patent Office 173

Lightning—
Article on Danger from Lightning, by R. A. Proctor 11

PAGE

Lightning—*Continued.*
Article on Photographs of Lightning, by W. Marriott and A. C. Ranyard 165
How Long does a Flash of Lightning last? by A. C. Ranyard 177
Note, by W. Marriott 179
Mortality and Accidents from, by W. Marriott 197
On the Disruptive Effects of Lightning, and on Dark Flashes, by A. C. Ranyard ... 198

Literature—
On Changes of Public Taste in, by Alex. B. MacDowall 103

Lodge, Dr. Oliver—
His Experiments with Lightning Conductors 221

Louis, D. A., F.I.C., F.C.S.—
Article on Nitrates 100
Article on the Occurrence of Gold 162
Article on Phosphates as Fertilisers ... 181

Lydekker, R.—
Dogs and Bears in the Present and in the Past 249

Lynn, Dr. Walter—
An early improver of the Steam Engine ... 148

Lynn, W. T.—
Article entitled, On the First Inventor of the Achromatic Telescope 153
Notice of his book entitled "Celestial Motions" 172

Macalister, R. D.—
The History of some Common Words ... 92

Macdonald, W. Rae—
Notice of his book on "The Construction of the Wonderful Canon of Logarithms," by John Napper 112

MacDowall, Alex. B.—
The Health of London 61
On Changes of Public Taste in Literature ... 103
The Nation's Purse 158
Emigration 207

Madge, Henry J.—
Letter on Comets 66

Marriott, W.—
Article on Photographs of Lightning ... 165
Note on Duration of Flash 179
Mortality and Accidents from Lightning ... 197

Mawer, W. (F.G.S.)—
Notice of a book by, entitled "Truth for its Own Sake." The Story of the Life of Charles Darwin 46
An Invertebrate Eye in the Vertebrate Skull 159

McGowan, George, Ph.D.—
On Common Salt 31

Meteorological Society—
Collection of Photographs of Lightning ... 168

Milliken, W. E.—
Old Museums 33

Mitchell's—
Minimum Thermometer 41

Molecules—
On the Dimensions of Molecules, by Walter G. Woollcombe 117-137

XUM

PAGE

Monck, W. H. S., M.A., F.R.A.S.—
Variable Stars 55
The Masses, Brightness, and Distance of Double Stars 140
Letter on Solar Spots and Variable Stars 150
Distances of Double Stars 170
On the Origin and Motions of Comets ... 219

Mountain Observatories—
On the Advantages of Mountain Stations for Observatories 125

Museums—
Article on Old Museums, by W. E. Milliken 33

Nebulæ—
The Nebula in the Pleiades 68
The Great Nebula in Andromeda ... 75, 108, 206
The Great Nebula in Orion 145
The Spectrum of the Orion Nebula ... 164
Photographs of Spiral Nebulæ in Ursa Major and Canes Venatici, and of the Dumb-bell Nebula 188

Newspapers—
Statistics with reference to 104

Niagara Falls—
The rate at which they are receding 67

Nicolls, G. W.—
Insect Swarms in South America 170

Nicolls, Arthur—
The Disruptive Effect of Lightning 233

Nicotine—
As a Disinfectant 51

Nitrates—
Article on, by D. A. Louis 100

Oliver (John Westwood)—
Notice of his book entitled "Astronomy for Amateurs" 112

Pearse, Frederick T. (M.D., F.R.C.S.)—
The Influence of Certain Drugs on Physical Strength and Endurance 132

Peek, C. E.—
Variable Stars 86
Nebulous Stars... 126

Pen-y-Van—
The English Adder 234

Phosphates—
Their Influence on Physical Strength and Endurance. Dr. Pierce 132
Phosphates as Fertilisers. D. A. Louis ... 181

Photographic Plates—
Sensitive American Photographic Plates used by the Brothers Henry 17
Photographic Efficiency of Telescopes as regards Faint Stars and Nebulæ. Prof. W. H. Pickering and A. C. Ranyard 247

Pickering, Prof. W. A.—
Notice of Observations of the Eclipse of 1899, Jan. 1 77
Letter on Photographs of the Orion Nebula ... 191
Photographic Efficiency of Telescopes for Stars and Nebulæ 247

Pincott, Frederic, M.R.A.S.—
Aryan Speech Traced to the Stone Age ... 77

Pleiades—
The Nebula in the Pleiades. Article on, by A. C. Ranyard 68

PAGE

Pocknell, Edward—
Letter on Abraham Sharp's Shorthand ... 109

Preyer, Prof.—
On Life-restoring 21

Proctor, R. A.—
His last article on Plague and Pestilence ... 1
Account of Mr. Proctor's death from the *Ocala Banner* 3
Official report on the Autopsy on the Body of Mr. Proctor 16
Notice of book by, entitled "The Student's Atlas in Twelve Circular Maps" 150
On some Strange Feats of Calculating Boys 8, 37, 63, 130
Danger from Lightning 11
Star-born Meteors 14, 188
On the Universal Action of Gravity 27
On the Growth and Decay of Mind ... 208, 230
On some Printers' Pranks 251

Proctor, Mrs. R. A.—
Civil List Pension Granted to 102

Proctor, Miss Mary—
Fairies of France, Italy, and Spain 20
North American Indian Fairy-Lore 107

Ranyard, A. Cowper—
The Effects of Competitive Examinations ... 7
On a Great Branching Structure in the Corona of August 29, 1886 18
How Comets come to us 42, 67
The Great Nebula in the Pleiades 68
Total Solar Eclipse of 1889 (Jan. 1) 105
Review of Abraham Sharp's Life and Correspondence 110
On Mountain Observatories 125
The Great Nebula in Orion 145
Prof. W. A. Pickering's Photograph of the Corona taken during the Eclipse of 1889 (Jan. 1) 168
On Stars showing Large Parallax 171
How Long does a Flash of Lighting last? ... 177
Photographs of Smaller Nebulæ 188
Mr. Isaac Roberts' Photograph of the Great Nebula in Andromeda 206
On Tornadoes 225
Brightness of Jupiter. Wilson's Theory of Sunspots 233
The Moon as seen in the Lick Telescope ... 244

Ranyard, A. C. and Marriott, W.—
Article on Photographs of Lightning ... 165

Reynolds, F. W.—
A Method of Ascertaining the Fundamental Colours 152

Roberts, Isaac—
Letter on Photographs of Orion Nebula ... 211
Photographs of Nebula in Pleiades 68
Nebula in Andromeda 75, 108, 206
Nebula in Orion 145
Photographs of Spiral Nebulæ in Ursa Major, and Canes Venatici and of the Dumb-bell Nebula 188

Ross, Lieut.-Col. W. A. –
Notice of book on "The Blowpipe in Chemistry, Mineralogy, and Geology 172

Rosse, The Earl of—
Measures of Heat radiated by the Moon ... 245

PAGE

Russell, T. B.—
Attempted explanation of the "Dark Flash" 191
More Properties of Numbers 234

Sadler, Herbert—
Papers on the Face of the Sky in each Number.
Letter with respect to the Boundaries of the Constellations 87
Variable Stars in Nebulæ and Nebulous Variables 104

Salamander—
Notes on the Spotted Salamander, by A. J. Field 60

Salt—
Article on, by Dr. George McGowan... .. 31
Blue Flame produced by Burning Salt ... 173

Sand—
Article on Drifting Sand, by C. Carus Wilson 105

Sand Grouse—
Article on the Sand Grouse 91
Sand Grouse in Yorkshire 209

Sawflies—
Articles on, by E. A. Butler 79, 119

Scintillation—
Cause of Changes of Colour in Stars ... 125

Scudder—
Notice of his book on the Butterflies of the United States 88

Sharp, Abraham—
Notice of the "Life and Correspondence of Abraham Sharp," by William Cudworth ... 110
Letters with respect to the System of Shorthand written by Abraham Sharp ... 109, 127

Shepherd, E. S.—
Photographs of Lightning 166, 178

Shorthand—
Letters on System of Shorthand, written by Abraham Sharp 109, 110, 127
Calendar's "Manual of Cursive Shorthand" 112
List of People Famous in History or Science who have written Shorthand 169

Siemens, Sir William—
Notice of Life of Sir W. Siemens, by W. Lant Carpenter 47

Slack, Henry J., F.G.S., F.R.M.S.—
Protoplasm a Builder 26
The Domain of Minute Life 138
Harmless Parasites and Uninvited Companions 222

Sleep—
Study of the Phenomena of Sleep 113

Soap—
"The Chemistry of Soap," by W. Mattieu Williams 51

Starcke, C. N.—
Notice of book entitled "The Primitive Family in its Origin and Development" ... 229

Stars—
Distances of Twenty Stars showing Large Parallax 171

Stokes, Prof. G. G. (Bart.)—
Baronetcy conferred on 160
Letter on Photographs of Lightning ... 210

Synclinal—
Group of Synclinal Structures in the Orion Nebula 147

PAGE

Symons, G. J.—
His Collection of Photographs of Objects Struck by Lightning 198
Letter on Lightning Phenomena 233

Sympson, E. Mansel, M.A., M.B.—
On Earth-Worms 184, 202

Tiger-Beetles—
Articles on Tiger-Beetles, by E. A. Butler 157, 179

Tripe, Dr.—
Observation of Ball Lightning 167

Trouvelot, E. L.—
Drawing of the Andromeda Nebula 76
Photograph of Lightning 166

Tupman, Lieut.-Col. G. L.—
Letter on Mr. Inwards's Compensating Pendulum 150

Urquhart, J. W.—
Notice of book on Electroplating 23

Vanilla—
The Vanilla Plant 193

Variable Stars—
Article on, by W. H. S. Monck 55
Letter from C. E. Peek 86
"Variable Stars in Nebulæ and Nebulous Variables," by Herbert Sadler 104
Nebulous Variable Stars 126

Vivisection—
Letters from Miss Frances Power Cobbe and Mr. A. J. Field 108, 109, 127, 128

Volcanoes—
Article on Volcanoes of the Sandwich Islands by W. H. Wesley 97
Eruption of Sho-Bandai-San 102

Watson, John—
Notice of book by, entitled "Sylvan Folk"... 228
Article entitled Sketches in Evolution ... 241

Wesley, W. H.—
The Formation of Coral Reefs 4
Footprints of Pre-historic Man 29
The Volcanoes of the Sandwich Islands ... 97

Westly-Gibson, John—
Letters with respect to Abraham Sharp's System of Shorthand 110, 127
List of Men Famous in History and Science who have written Shorthand 169

Williams, A. Winkelried—
Our Microscopic Foes 183, 204

Williams, W. Mattieu—
Pre-historic Metallurgy 30
The Chemistry of Soap 51
Candles 161

Wind—
Pressure and Velocity of Mr. Dines's Experiments 173

Wise, A. Tucker—
Notice of book by, entitled "Alpine Winter in its Medical Aspect" 47

Woollcombe, Walter G.—
On the Dimensions of Molecules ... 117, 137

Worms—
Anatomy and Life History of Earth-Worms, by Dr. E. M. Sympson 184, 202

Worsley-Benison, H. W. S.—
Notice of book entitled "Haunts of Nature"... 229

XUM

INDEX OF ILLUSTRATIONS.

Adder— PAGE
The Common Adder (*Pelias Berus*) 83
Skull of Adder and Heads with Fangs 84

Andromeda—
Woodcut from Photograph of Great Nebula 74
Outline of Bond's Drawing of Nebula 75
Map Showing Position of Nucleus and Nova 77
Photographic Reproduction of Mr. Isaac Roberts' negative of ... 109
The same on a larger scale ... 207

Barometer—
Self-registering of Lick Observatory 59

Basongo Meno—
Native Market Women 129

Bat—
The Long-eared Bat (*Plecotus communis*) 124
The Horseshoe Bat (*Ferrum equinum*) 124
The Vampire Bat (*Vampirus spectrum* 125

Bear—
Brown Norwegian Bear, and Teeth of Bear 250

Bee—
Front View of the Head of the Polish Bee 143
Top View of Head—with Sections of Tongue—Palpi and Maxillæ 144

Buck-Jumping—
Mule 45

Cockroach—
The Common Cockroach (*Periplaneta orientalis*) 199
Elytron and Wing of Male Cockroach 200
Cast Skin of 217
Eggs of 218
Labium and Maxilla of 218
Leg of Cockroach, and Digestive System of 240

Caroline Island—
Bird's-eye View of 5

Coral Reefs—
Sections of, according to Darwin ... 6

Corona—
Outline from Prof. W. H. Pickering's Drawing from his Photograph of the Corona of 1886, August 26 ... 18
Branching Structures in Coronas of 1871 and 1886 19
Copy of Prof. W. H. Pickering's Photograph of the Corona of 1889, Jan. 1 168
Photograph of Corona of 1889, Jan. 1, by Prof. Barnard ... 104
Drawing by Mrs. M. L. Todd of the same Corona 104

Cygni, τ—
Orbit of τ Cygni 246

Dark Flash—
Photographs of Artificial Flashes 211

Death-Rate—
Curve showing Death-Rate for London and some other Great Towns 61

Detective Cameras—
In the Form of a Book 94

Disease—
Curve showing Deaths from Different Diseases in London—with corresponding Meteorological Conditions 62

Dragon Tree—
Photograph of Old Dragon Tree, Teneriffe 237
Young Dragon Tree, Kew 237

Draper—
His Self-registering Barometer and Rain-gauge 59

Emigration— PAGE
Curves showing Emigration from the United Kingdom 207

Footprint—
Of Prehistoric Man in Nicaragua, and Strata under which the Footprint was found 29

Foraminifera—
Group of 26

Hawaii—
Map of Island of 97

Hay Fibre—
Enlarged View of, with Vorticellæ and Germs 140

Hazel—
Leaves and Leaf-buds, and Male and Female Catkin of Hazel 49
Catkin and Floret Male and Female, and Ripe Hazel Nuts 50

Jackal—
Skulls of Indian Jackals 39
Living Jackal 40

Kilauea—
View of Crater of Kilauea 98

Lick Observatory—
General View of Great 36-inch Equatorial 35
Hydraulic Machinery for lifting Floor of Great Dome 36
General View of Observatory ... 37
Photographic Views of ... 124, 129
Photographs of the Moon taken at

Lightning— 244, 249
Photographs of, by G. J. Nines, E. S. Shepherd, J. Gray, A. W. Bates, J. Guardia 157
L. S. Clarke... 165
H. Schleusner, E. B. Vignoles, Dr. Puddicombe, Dr. Pippard, W. H. Jennings, and Dr. Drewitt ... 168
Nasmyth's Drawings of Artists' Lightning and Lightning as he saw it 165
Photographs of, by G. J. Nines, 1889, J. Porter, E. A. Golledge, and Dr. H. H. Hoffert 177
G. E. Davis, A. W. Nicholls, W. Shuter 185
Damage by, to Trees and Persons 197

Lightning Rods—
Apparatus used in Dr. Oliver Lodge's Experiments as to Lightning Rods 221

Literature—
Curves showing Changes of Public taste in 103

Lulua—
Rapids of, and Falls of the Luebo 128

Moth—
Meal Moth 53
Grease Moth... 54

National Expenditure—
Curves showing National Expenditure 159

Nebulæ—
Great Nebula in the Pleiades, from Photographs of the Brothers Henry 68
Photographic Reproductions of Photographs of Andromeda Nebula 109, 209
Orion Nebula 145, 148
The Spiral Nebula in Ursa Major... 188
The Spiral Nebula in Canes Venatici 188
The Dumb-Bell Nebula 188

Orion—
Photographic Reproductions of Mr. Isaac Roberts' Negatives of ... 145
Protographic Reproduction of Mr. Lassell's Drawing of 148
Diagram showing Structures traceable in Photographs of 146

Pele's Hair— PAGE
Enlarged Figures of Scoria Cells and Pele's Hair containing Air Bubbles 99

Pendulum—
Mr. Inwards's Pendulum and Lord Grimthorpe's Pendulum... ... 85

Periodicals—
Diagram showing Age of Principal English Papers and Periodicals... 104

Pineal Eye—
Sections of Pineal Eye of Varanus Giganteus and Halteria Punctata 160

Pleiades—
Lithograph from Photograph of Nebula in the Pleiades, by the Brothers Henry 68

Polycistina—
Group of 27

Rain-gauge—
Self-registering at Lick Observatory 59

Salamander—
The Spotted 60

Sand—
Pillars of Sand supporting Pebbles or Shells 106

Sand Grouse—
From a Living Specimen in the Gardens of the Zoological Society London 92

Sawflies—
Grub, Perfect Insect, Wing of, Body and Abdomen 79, 80
Enlarged view of Saws of Sawfly, Grubs Feeding, Pupa, and Eggs 119, 120

Scoria—
Enlarged Figures of Scoria Cells ... 99

Sharp, Abraham—
Facsimile of a Specimen of A. Sharp's Shorthand on the end of a letter from Flamsteed... ... 111

Snake—
Seizing a Toad by its right hind leg 85

Somali—
Natives, Men and Women 44

Spiral Nebulæ—
The Great Andromeda Nebula 109, 207
The Spiral Nebula in Ursa Major... 188
The Spiral Nebula in Canes Venatici 188

Sponge Spicules—
Group of 27

Stars—
Diagram showing Distances of some of the Nearest Stars 171

Sun's Motion—
Diagram Showing Apex of Sun's way in the Heavens 121

Synclinal Group—
Of Structure from the Corona of 1871 compared with Synclinal Grouping of Structure in Orion Nebula 147

Thermometer—
Mitchel's Minimum Thermometer... 41

Tiger-Beetles—
Cicindela Campestris, Mandible of Tiger-Beetle 157
Labium of Tiger-Beetle 158
Wing of Tiger-Beetle, Larva of Tiger-Beetle 180

Tornadoes—
Photographs of Destruction caused by 217, 225, 228
Map showing Distribution of, in America 227

Water Flea—
Daphnia Pulex and Parasites ... 223

Worms—
Anatomy and Early Life-history of Earth-Worm ... 185, 186, 202
